

Equidame phantom technical specification

Dimensions

Length.....	220 cm
Width.....	50 cm
Length of the back.....	140 cm
Length of the neck.....	70 cm
Height of the neck.....	35 cm
Distance form the middle of the vaginal opening to the back level.....	20 cm
Total weight	200 kg

Structure

Continuous standby	
Wall mounted control unit	
Connecting voltage.....	230 VAc or 110 VAc
Connected load.....	1,2 kW
Operating voltage.....	24 V
Frame.....	Steele
Case.....	moulded,flexible
Surface.....	seamless polyurethane
Stand.....	telescopic
Artificial vagina type.....	open principle,aluminium body
Structure of the artificial vagina.....	air-water-combination,adjustable
Water volume (gel volume).....	1,5 L
Installation of the vagina.....	inside the phantom
Interior of the phantom.....	Closed,warmable
Installation place.....	sheltered place

Functions

Minimum height.....	120 cm
Maximum height.....	160 cm
Vagina temperature.....	adjustable
Interior temperature.....	adjustable
Hanging of the vagina.....	flexible in all directions
Semen collection.....	separation into five cups
Volume of cup.....	45 ml each
Fullnes degrees of the collection cups.....	adjustable
